

Hey.

I just thought I would clarify that the 3 questions should be clarifying if the team is in line with the sprint goal. and are the most common way of running a Daily Scrum. As of November 2017, the Scrum Guide clarified that the development team can decide how best to run the meeting as long as it is in line with reaching the sprint goal:

"The structure of the meeting is set by the Development Team and can be conducted in different ways if it focuses on progress toward the Sprint Goal. Some Development Teams will use questions, some will be more discussion based. Here is an example of what might be used:

- What did I do yesterday that helped the Development Team meet the Sprint Goal?
- What will I do today to help the Development Team meet the Sprint Goal?
- Do I see any impediment that prevents me or the Development Team from meeting the Sprint Goal?"

I hope this helps!

Paul.
